

MISSING!

Golden Retriever

Name: KEKOA (kuh-KOH-ah)

Age: 7

Color: Dark golden/red

Weight: 75 lbs

Gender: Male – not neutered

He was last seen in the woods behind Ketchikan Trail and 178th Street at 1:00 AM on January 15, wearing TWO collars and dragging an attached leash. One collar has a RAGOM tag with phone numbers. The tag indicates he has a microchip – however, he MAY NOT. He is a shy/scared rescue dog, and may be more likely to approach other dogs than people. Will run if approached. Please stay calm and quiet and allow him to come to you. Prefers men over women.
